Weekly ReportDirectorate of Administration

-- On 9 September, the Senate Governmental Affairs Committee chaired by Senator Roth began three days of hearings on the Roth/Stevens supplemental retirement bill. OPM led off the testimony by expressing the Administrations's endorsement of the Roth/Stevens proposal with some stated exceptions. OPM's primary exception was to the proposed thrift plan which the D/OPM said would be in opposition to the Administration's plan to eliminate 401k programs in the revision of the tax laws. OPM did endorse the Roth/Stevens three-tiered approach of (1) a defined benefit plan (2) Social Security and (3) a thrift plan (other than 401k). In addition to the 401k issue, it was stated that special categories of employees, (law enforcement, fire fighters, etc.) require earlier retirement than allowed in the Stevens proposal; and the current systems best meet those needs, i.e., age 50 with 20 years of service. The other major area of disagreement was the credit of unused sick leave towards retirement which the Administration wants to drop. This is just the beginning of the negotiations on the provisions of retirement legislation; however, Senator Stevens restated his objective to get something enacted by the end of the year. The Office of Personnel will continue to monitor this activity and work on our own retirement legislation.
